Should the Voting Age Be Lowered to 16?
Personal Response

Name: _____ Date: _____

Support and opposition to lowering the voting age is a discussion that keeps appearing time and time again when an important vote or election is held, but very rarely seems to change.

Do you think young people are mature enough to vote?

Is 16 low enough or should it be lower?

Do you believe that the voting age should be higher?

Write down your own personal thoughts and feelings on the topic.
