

# Greetings Snap Cards

## Instructions

Shuffle the picture and word cards together and deal them out to the players. Holding their cards face down, players take their top card, name it (by either reading the word or naming the picture) and place it on the pile in the middle. Players continue to place their cards until there are two matching cards (either matching words, pictures or word and picture). They then must touch the pile and shout 'snap!' This person then collects all the cards in the pile. The winner is the person with the biggest pile of cards when the time runs out.
