

## EYFS/KS1 Home Learning

### Seeds - Investigations Activity 4

#### Things you will need

- Fruits and vegetables
- Spoons
- Plastic cups

#### Optional;

- Soil

All equipment can be swapped for something else that is similar based on what you have at home.

#### Activity

This activity is to help the children use their investigative skills to make enquiries about the world around them. Please encourage the pupils to collect their own equipment where possible. Do as little or as many steps as you like!

1. Get an adult at home to help cut your fruits and vegetables in half
2. Use a spoon to find the seeds inside
3. Can you find them all?
4. See and feel how they are different. Are they all the same shape and size?
5. Put a small amount of soil into a plastic cup and plant your favourite seed. Remember to water it and place it in a sunny spot!
6. How many days does it take to grow? Can you see any green shoots?
