Things you will need

- Access to some outdoor space!
- Pine cones
- Leaves
- Twigs
- Stones
- Feathers
- petals

All equipment can be swapped for something else that can be found outdoors belonging to the natural world

Activity

Take your home learning into the great outdoors and have a go at this fun Maths challenge!

This activity is designed to bring numeracy outdoors. It focuses on sorting and counting using found natural objects. Please encourage the pupils to collect their own equipment where possible.

1. On your daily outdoor activity take a look around and see what you can collect. Look for leaves, pebbles, petals, twigs, pine cones, feathers, anything you can find!

2. Can you sort your treasures that you have collected into categories? Can you put all the twigs together and all the leave together? How many

of each object have you collected? Did you find more leaves or more pebbles?
