

EYFS/KS1 Home Learning

PSHE Activity 3

Things you will need

- Patients (Dolls/Teddy Bears/ Dinosaurs)
- Bandages
- Plasters
- Blankets
- Pen & Paper
- Dressing up items (A large shirt can be worn back to front to create a gown)

All equipment can be swapped for something else that is similar based on what you have at home.

Activity

This activity is to expand your child's knowledge and understanding of the world by understanding what doctors do, learning about medical equipment and its purpose, talking about illness and treatment. It will also help to encourage your child to show care and concern for others through play and in real life situations.

Can you help your patients to feel better?

1. Examine your patient to see what's wrong and how they feel.
2. Think of what you can do and what they might need to make them feel better.
3. Does your patient need any medicine? Write it down on your paper if they do.
4. Tuck your patient up in their blanket so they have time to rest and recover.
