

## KS2 Home Learning – Turn Taking

### Mini Beasts – Create your own creature

Garden Detective - <https://education.abc.net.au/res/i/L1183/index.html>

Explore this New Zealand garden. Search for small creatures such as a bumblebee, a weta and a woolly bear caterpillar. Have a close look at their body parts.

Identify groups of creatures that have similar body features, such as wings or number of legs.

Return all the animals to their habitats.
