

Rounding Race Game

Instructions

How quickly can you round the numbers on the board? The aim of the game is to get as far along the track as you can by working as a team and checking each other's answers as you go along.

- Work with a partner.
- Take it in turns to round a number to the nearest ten. Your partner must agree that you got the answer right and can move on to the next square.
- If you didn't round it correctly, pass the square onto your partner.
- How far can you reach before your teacher tells you to stop?
