

EYFS/KS1 Home Learning
Camping stick measuring activity
Activity 1

Things you will need

- A stick!

All equipment can be swapped for something else that is similar based on what you have at home.

Activity

This week's theme is all about camping. Practice your Maths skills by measuring things with your camping stick!

This activity focuses on numeracy and measurement. Please encourage the pupils to collect their own equipment where possible.

1. When you are playing outside find a stick that you want to use as your camping measuring stick.
2. Can you find things in your garden that are longer than your stick? Can you find things that are shorter than your stick or the same size?
3. Take your stick with you on your next walk to measure things that you find.
