

The 'Magic Bag' Game

1. Take a cloth bag
2. Place an object/toy into the bag (without the child seeing what the object is)
3. The child then puts their hand into the bag and feels the object
4. The child says what it is
5. Or the child describes the object to a sibling or another adult and they have to guess the object
6. This can be extended to the party game where you stick a small picture of an object on your forehead and the child has to give you clues for you to guess the object in the picture
