Dear Families

I write to advise you, the student with whom your child shared transport arrangements with and developed symptoms of Covid-19, has received a **negative** PCR Test result.

Therefore, your child is expected to return back to school on Friday 25 June at 8:30am.

Transport has been advised, however, it is advisable you contact your normal transport provider yourself to confirm and ensure your child is collected in the morning to be brought to school.

Yours faithfully
