

ABBOT'S LEA SCHOOL

Headteacher: Mrs Ania Hildrey, FCCT, B.Ed(Hons), M.Ed, NPQH, NPQEL

5 December 2023

Dear Families

Ref: Department for Education - RAAC Survey

As you will be aware from the national press, DfE has identified schools with a potential RAAC concrete problem.

Abbot's Lea School had its first RAAC survey 14 September 2023. That survey identified no RAAC in any of the classroom buildings, but raised a question over The House (in one of the extensions added over time some decades ago).

Today, we had a second survey focusing on this area.

I am delighted to confirm that there is no RAAC identified in that area and so, all buildings on Abbot's Lea School site appear to be clear of RAAC.

We will therefore continue with the normal cyclical and reactive maintenance schedule of all buildings on site without a fear for RAAC-related problems.

Yours sincerely

Mrs A Hildrey
Headteacher
