Dear Families

## Re: Exams

Today marked the beginning of our exam season, and we are incredibly proud of our students.

Whilst we do not yet know the results, what we *do* know is that our students gave their very best effort. Some found the experience challenging, but they accepted help when needed, and—most importantly—remained respectful of those around them. They showed real maturity and did not disrupt their peers, allowing everyone to do their best.

As we move forward with the rest of the exam schedule, we kindly ask for your continued encouragement and support at home.

A reminder of the upcoming exams is below. Please note that **not all students are sitting all of these exams**—families have already been informed which specific exams apply to their child.
